

## NO. 141.

### BENEVOLENT SOCIETIES.

2720

## LAND MONOPOLISTS.

Has it ever occurred to the mass is of the American people that the most serious danger which now menaces free institutions and which threatens destruction to the American Republic, lies and lurks in the fact that individuals, corporations, syndicates and associations are yearly securing title to vast landed estates in the several States and Territories of the Far West and Southwest of the Union? If it has not, we conjure the people to pause and consider the subject, and as they value the heritage bequeathed to them by a noble and considerate ancestry, we warn them at once to take steps to put an immediate stop to the present practice and tendency of massing large bodies of land and securing control thereof and title thereto by a few persons, natural and artificial.

It is a thing of daily occurrence, as the newspapers inform us, that wealthy men at home and abroad are buying up vast tracts of land, from the prairies of Dakota to the cedar brakes of Texas and that they are farming them out to a host of tenants who, in the nature of things, must ultimately become the predailed slaves of their landlords, dependent upon them and obedient to their will.

We are told that the London Times has already become alarmed at the fact that so many of the British nobility have invested such immense sums in American realty, and this dread springs from the fact that it is apprehended, in case of war between the two countries, that these land owners would be swayed or controlled by their interests, to such an extent as to hamper their country in the conduct of the war or to preclude her in the outset from declaring war even to assert her just rights or vindicate her injured honor. Whether these fears be reasonable or not, it is not for us to say, for we don't care one way or the other. But we do think, and say, that our people have a more serious danger threatening them, and one which every friend of America ought to exert himself to shun. It is this. The gradual building up and establishment of a landed aristocracy all over the Union.

Let us, without extending this article to too great a length, endeavor to point out the practical workings of this aggregation of lands into a few hands. The Duke of Cambridge, we will say, comes into Dakota and purchases five hundred thousand acres of her rich and rolling prairies. Possessing immense means, besides, he commences the work of improving his purchase and planting on it, we will say, a colony of 5,000 English tenants with their families. They go to work and in the course of a few years His Grace, in the very heart of a sovereign State of the American Union, owns a Principality, and every tenant on it is subject to his control. Suppose then that some grave question of State or national policy comes up, and it has to be voted upon by the people, it may perchance be one that directly touches the rights of labor as against the unjust exactions of insensate, insatiable capital. If it be a State question My Lord is appealed to across the waters, and from his country seat in Sussex, or from his town house on Grosvenor Square, he directs his overseer or manager to mass his tennantry and vote them in a solid body pro or con on the measure. This vote may decide the question, and that decision may prove disastrous to those who are warring to the death with capitalists or grasping corporations.

Suppose a Presidential contest to be a close one like that of 1876, how easily might My Lord this and My Lord that, one in Dakota, another in Kansas, and decide the result and decide it too in a way that would be inimical to the best interests of the people. In the same way but on a smaller scale, might counties, townships, wards and cities be controlled by this system of absenteeism. Ireland's woes and her present misery spring in a great measure, from this pernicious system of large land owners having their residence abroad. Let it not be inaugurated anywhere on the soil of the American Republic!

Rather than do so let the legislative power of the State and national governments be invoked and exercised to restrict and limit the ownership of land to not more than 40 acres to the single proprietor.

Better far this limitation than to have home and foreign landlords, by their armies of subservient tenants, shaping the policy and controlling the destinies of State and national governments.

The new Guion line steamer Oregon, on her trial trip yesterday, made 20 knots an hour. Her builders promise the ship to cross the Atlantic in five days.

Robinson will be a "bigger man than Grant" if he beats the Blue River.

## CROP REPORTS.

September returns to the Department of Agriculture indicate a lower condition of corn than in August in every section of the country and in nearly every State. The only grains in the West are in Missouri, Kansas and Nebraska, where slight improvement is indicated. Minnesota stands as in August; Arkansas makes a gain of one point, and Georgia and Alabama remain as in August, but all the other cotton States show a heavy decline. The figures are also much reduced for each of the Middle States.

The corn surplus States show changes as follows: Ohio, a reduction from 89 to 82; Michigan, 68 to 60; Indiana, 95 to 85; Illinois, 86 to 82; Iowa, 85 to 80. The increase in Missouri is from 83 to 84; Kansas, 99 to 101; Nebraska, 84 to 87. The decline in New York is from 90 to 77 and in Pennsylvania from 99 to 89. The general average of condition on the 1st of September was 84, a decrease of 5 points during last month. The cause of this reduction, so nearly universal, is drought, which is reported from every State of the Atlantic Coast, the Gulf Coast and the Ohio Valley, and beyond the Mississippi to the crest of the divide between that river and the Missouri. Between the Ohio river and the lakes the distribution of rain has been unequal, in a few places in excess, while a deficiency is generally reported.

The crop is nearly everywhere late, requiring one to two weeks longer season than usual to mature. Where Kansas and Missouri seed was planted in more northern territory the crop is still later, causing much apprehension as to ripening. While planting was late and the early season too wet, with drought following, the average temperature of the Summer has been low, making a full yield an impossibility.

## THE EUREKA AND COLORADO ROAD.

The Eureka Leader states that some of the gentlemen connected with the Eureka and Colorado River Railroad are endeavoring to make arrangements, in which they feel confident of success, to secure the necessary rolling stock and the rails sufficient to complete twenty miles of the road before the winter sets in, the said twenty miles to extend from Eureka southeast. As is well known, all the heavy grading of this road for that distance has already been completed and but little remains to be done, except to place a few bridges on the line, the ties having already been gotten out and paid for, and most of them having been delivered over a year ago along the line of the track. It is to be hoped this movement will succeed, as the building of the road will greatly help the mining business of Eureka. It is well known that a large quantity of the coal and wood used in this camp is brought from the country that surrounds the line of the proposed road, and if the road is built the trouble that is frequently met with in the winter season by the wagon roads being impassable by reason of the heavy falls of snow and its attendant circumstances, will be effectually removed, thereby enabling the mining men to obtain a reliable supply of both coal and wood at all seasons of the year.

## Diminishing the Public Debt

The Washington Critic says another bond call may be made before the fifteen million call, just issued, matures, which will be December first next. The nearest estimate that can be made, fixes the further amount of bonds to be redeemed during the fiscal year a forty-five millions. This would make the total debt retired during that period about fifty millions.

## Whitelaw Reid for Senator

The Philadelphia Ledger says that Whitelaw Reid's nomination for the United States Senate is the gossip of the New York clubs, and is regarded as one of the fruits of the Stewart and Half-breed reconciliation. It is not known if Reid covets the nomination.

## An Irish Greenback

The secret service division of the Treasury Department has received from Boston one of the \$5 notes of the Irish Republic, previously reported in circulation. It is said by Treasury experts to be a fair imitation of United States Treasury notes.

The condition of the National Treasury, as telegraphed from Washington yesterday, was as given below:

Gold coin and bullion	\$204,918,388
Silver dollars and bullion	148,143,983
Fractional silver coin	28,265,950
U. S. notes	52,950,066
Total	\$404,279,377

Is the mission of the Republican party ended?

According to the Lyon County Times the C. & C. Railroad Company is economizing. Every other section boss on the line of the road has been laid off, and those retained now have eighteen miles of track to look after and keep in repair.

## THE FIELD OF POLITICS.

The Republican Outlook—Work of the Conventions.

The New York Tribune says: A work well begun is half done. It is the first step that counts. In view of these proverbs the Republicans of New York, Massachusetts and New Jersey may well enter upon their respective campaigns full of courage and determination. Excellent nominations have been made in each of these States. In each the candidates stand upon sound and sensible platforms, free alike from evasion and buncombe. The speeches delivered in the conventions were of unusual force and made an impression which will last through the canvass. This is our year. The tidal wave of last Fall has not been and will not be encountered. Iowa will rebuke the Greenback-Democratic coalition. Ohio will demonstrate that free whiskey and free beer cannot command the majority of her intelligent reputable voters. Massachusetts will fling Butlerism out of the Statehouse and Pennsylvania will set the Democratic administration, whose extra session is extra stupid and extravagant. Are the Republicans of New York and New Jersey going to win similar victories? We firmly believe they can, if they strive for them. The Democrats in both States will make a desperate fight and they cannot be easily defeated, but they can be beaten and that, too, by substantial majorities, if everybody on our side will help. The set of the tide is with us, because the argument is with us.

## THE "SACK" SIGHT.

(Carson Appeal).

The chances are that most of the Senatorial rumors start from a general wish on the part of a majority of the public that they would like to see plenty of coin in the fight. Mackay, Jones and Sharon making a three-cornered wrestle for the great stakes and clashing their sacks in the fray might be a horrible thing to contemplate from a purely patriotic and copper rivited constitutional point of view, but there is no disguising the fact that nine men out of ten want it just that way. The Appeal believes that the agitation now being made in the Senatorial question can do no harm and will continue to publish anything and everything that can be advanced upon the subject from either side. Every man has the right to express his ideas upon the matter and out of this agitation the Republican party, if it sticks to its principles and its work, can pretty accurately determine who is best able to pull it through to victory.

## Railroad Taxation.

Of what was done in Lyon county on the question of railroad taxation is stated as follows by the Lyon county Times:

The Board of Equalization met on Thursday, September 20th, and equalized the taxation on the railroads in the county as follows: The C. & C. pays \$4,000 per mile on a road bed of 5 1/2 miles, the same as last year. The V. & T. which was assessed at \$8,000 a mile was raised \$1,000 and pays \$9,000 per mile on a road bed of six and forty-seven one-hundredths miles. The C. P. was returned by the Company at \$9,000 per mile and returned by the Assessor at \$16,000, and then reduced by the Board to \$11,500. This road has 12 1/2 miles in the country and at these figures it brings in \$18,375 more than last year.

## A Charter to be Surrendered.

(Stockton Herald)

It is understood that the stockholders of the Stockton National Bank have been for some time considering the matter of surrendering their United States charter and conducting their business in the future as a private bank. Their reasons for doing so are the high premiums on Government bonds used as a basis for circulation, the low rate of interest that such bonds now bear, the taxing, by the General Government, of circulation and a clause in the United States banking law prohibiting National Banks from lending money on mortgages. Besides these there are many other features in the workings of the law that render it inconvenient and not adapted to a miscellaneous business in a farming community where the most part of the business is long loans on real estate security.

Referring to Sheridan at the battle of Winchester his address at the soldiers' reunion in Oneonta, the Rev. Dr. Fulton quoted the General as saying in nathological terms, "We shall whip them." This was too much for one of the old vets in the audience, and rising in his chair and shaking his hand at the reverend speaker, he shouted: "That isn't what General Sheridan said; what he said was, 'We'll lick 'em out of 'em.'" This brought down the house. After the confusion had subsided, Dr. Fulton smilingly added, "And he did it too."

Little Switzerland is disturbed about the large increase in its foreign population. Between 1870 and 1880 nearly 60,000 natives of other countries settled within Swiss territory; about the same number of natives of Switzerland emigrated to other countries.

The area of Dakota Ty. is 95,000,000 acres, or just four times that of the state of Ohio. Her population is a quarter of a million, and constantly increasing.

## Facts of Interest.

Visitors to Abraham Lincoln's grave keep it constantly decked with flowers.

During the last four years the province of Ontario has lost one hundred thousand of its population by emigration. The United States has absorbed seventy thousand of this number.

During the first four days of its existence the new parcels post, in London, delivered 30,000 parcels and collected 70,000 in the metropolis alone, the number increasing every day. The average weight of the packages was three pounds.

Nearly two hundred persons have been saved from drowning by Chas. Shannon, a watchman on a Philadelphia dock, during his present employment. He has saved as many as eighteen in one day.

The Board of Equalization of California has increased the assessable value of the railroad property of that State for the present year \$8,500,000.

An Athens (Ala.) woman, with her four-year-old daughter and babe, sought shelter from a storm under a tree. Lightning killed the two former, while the baby was found quietly clinging to the arms of its mother.

## Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so, send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-sw-lyr

Ayer's Agree Cure not only affords immediate relief, but it eradicates the malarial poison which produces the disease, without leaving any injurious effect, as is the case with quinine and many of the agree medicines advertised. It is the only medicine in existence which may be considered an absolute antidote for fever and ague, and kindred diseases.

The most healthy and popular drink of the season is the ice cold soda water sparkling with purest gas and flavored with true, delicious fruit syrups, to be had only at Queen's soda fountain.

The BUYERS' GUIDE is issued March and Sept., each year: 216 pages, 8 1/2 x 11 1/2 inches, with over 3,300 illustrations—a whole picture gallery. Gives wholesale prices direct to consumers on all goods for personal or family use. Tells how to order, and gives exact cost of everything you use, eat, drink, wear, or have fun with. These invaluable books contain information gleaned from the markets of the world. We will mail a copy free to any address upon receipt of the postage—7 cents. Let us hear from you. Respectfully,

## MISCELLANEOUS.

AYER'S  
Sarsaparilla

Is a highly concentrated extract of Sarsaparilla and other blood-purifying roots, combined with Iodide of Potassium and Iron, and is the safest, most reliable, and most economical blood-purifier that can be used. It invariably expels all blood poisons from the system, enriches and renews the blood, and restores its vitalizing power. It is the best known remedy for Scrofula and all Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blotches, Sores, Bolls, Tumors, and Eruptions of the Skin, as also for all disorders caused by a thin and impoverished, or corrupted, condition of the blood, such as Rheumatism, Neuralgia, Rheumatic Gout, General Debility, and Scrofulous Catarrh.

## Inflammatory Rheumatism Cured.

"AYER'S SARSAPARILLA has cured me of the Inflammatory Rheumatism, with which I have suffered for many years."  
W. H. MOORE.

Durham, Ia., March 2, 1892.

PREPARED BY

Dr. J. C. Ayer & Co., Lowell, Mass.

Sold by all Druggists; \$1, six bottles for \$5.

## SHERIFF'S SALE.

IN THE SEVENTH JUDICIAL DISTRICT Court of Nevada. W. R. Thompson, plaintiff, vs. Newton Graham, defendant. Under and by virtue of an order of sale and decree of foreclosure issued out of the District Court of the Seventh Judicial District of Nevada, on the 6th day of September, A. D. 1893, in the above entitled action, wherein the above named plaintiff, W. R. Thompson, obtained judgment and decree against Newton Graham, defendant, for the sum of \$714 and costs of suit on the 6th of September, A. D. 1893, I am commanded to sell the following described pieces or parcels of land, to-wit: The southwest (SW) 1/4 of the northwest quarter (NW) and lot number four (4) of the northwest quarter (NW) of Section one (1) in township twenty-four (24) north range, nineteen (19) East M. D. B. and M., containing eighty-two (82) acres and commonly known as the Graham Ranch, situate in Winnemucca Valley, Washoe county. Public notice is hereby given that on

Saturday, the 6th day of October, 1893,

Between the hours of nine o'clock in the forenoon and five o'clock in the afternoon, to-wit at twelve o'clock noon of that day, in front of the Court House door at Reno, Washoe county, Nevada, I will, in obedience to said order of sale and decree of foreclosure, sell the above described property or so much thereof as may be necessary to satisfy plaintiff's judgment with interest thereon and costs of suit, to the highest and best bidder for gold coin of the United States.

J. F. EMMETT,  
Sheriff of Washoe County.  
Reno, Sept. 14, 1893.

## NOTICE.

IN THE DISTRICT COURT, SEVENTH DISTRICT, Nev., County of Washoe. In the matter of the estate of Frank Perkins, deceased. A document purporting to be the last will and testament of FRANK PERKINS, deceased, having, on the 20th day of September, 1893, come into the possession of the said District Court and a petition for the probate thereof and for the issuance of letters testamentary to Jennie Perkins having been filed by her, it is hereby ordered that Thursday, the 4th day of October, A. D. 1893, at 10 o'clock A. M. of said day, at the Court room of said Court, at the Court House, in Reno, Washoe county, afore said, be and the same is hereby appointed the time and place for the proving said will and hearing said application, and that where any person interested may appear and contest the said will and may file objections in writing to the granting of letters testamentary to said petitioner.

It is further ordered that notice thereof be given by the Clerk of said Court by publication not less than ten days before Thursday, said 4th day of October, A. D. 1893, in the NEVADA STATE JOURNAL, a daily newspaper published in said county.

And it is further ordered that subpoenas be issued to the subscribing witnesses to said deed and that citations be issued and served upon the heirs of the said testator residing in said county, if any, to appear and contest the probate of said will at the time appointed.

W. M. BOARDMAN,  
District Judge.

## IN AND OUT OF TOWN.

## What is Being Said and Done in a Small Way.

Geo. H. Morrison was in town yesterday.

Olat Roberts was on the streets yesterday.

Prof. J. E. Bray, of Dayton, was in Reno yesterday.

State Surveyor General Preble was in town yesterday.

Twelve car loads of beef cattle went west yesterday.

John Sunderland returned from the Bay yesterday.

J. C. Smyles has been appointed County Surveyor of Humboldt county.

Ed. Dolan arrived in town yesterday from Long Valley with a load of grain.

Jim Ferguson has a horse and buggy for sale very cheap. See 50-cent column.

Judge Sabin, of the U. S. District Court was a passenger for the Bay yesterday morning.

H. Judd is making some substantial improvements on his residence on Sierra St.

Supt. Lon Hamilton and Capt. Matt Canavan were passengers for the Bay yesterday morning.

Controller Hallock returned from the East yesterday morning. He came back the Southern route.

H. H. Beck, Reno, and Judge Harris, Carson, are on a business trip through Douglas county.

Orrin Ross' second daughter is quite sick with fever. The eldest has just recovered from a similar attack.

Dr. Waggoner performed a successful surgical operation on one of the prisoners in the county jail Friday morning.

The Band of Hope will meet to-day in the Methodist Church, at 4 o'clock P. M., and the public are invited to attend.

Dave Robinette arrived yesterday morning from Silver City. He is en route to tide water in search of health.

Supt. Bishop has discharged Mrs. Emerick who was committed from Enreka, and her husband has taken her back home.

O. S. Feary, a Nevada pioneer, who made a fortune in stocks many years ago went East and settled down, died in Carthage, N. Y., Sep. 2d.

A small army of sheep shearers, having completed their labors to this section for the season, left yesterday morning for California.

Griswell &amp; Welch arrived in Reno Friday morning and have opened an establishment on Sierra street for the manufacture of a patent spring bed.

Lieutenant Governor Laughton is in town and will remain a day or two, attending to his duties as a member of the Board of Asylum Commissioners.

P. N. Norton brought in from Peavine yesterday some fine samples of copper ore, taken from the mines on which he has been working assessments.

George Hymers, with a four-in-hand, took the Reno brass band down to the Asylum last night and treated the Superintendent and the cranky inmates to a serenade.

A \$300 mare, the property of Wm. Perkins, near Glendale, broke out of the pasture a few days ago, got on to the railroad track and was run over and killed by a passing engine.

The stage from Benton to Bishop Creek was robbed by a solitary highwayman on Thursday night last. The bold robber got away with the express box containing \$12 and made his escape.

There is no firm in the country that comes nearer doing business on the dead square than Gallatin &amp; Folsom, and they are doing their full share of business both at wholesale and retail.

## MORE SHOOTING.

Nevada Still Marches in Advance of California.

Wells Drury writes the Enterprise from Carson that on Friday there was an interesting trial of skill, as well of endurance, between Nick Williams, of California, and George C. Thaxter.

Williams came up to shoot in the inter-State match, but in the practice after reaching Carson fell down so badly at the 500 range, that he was dropped out by the Captain of his team. He is, nevertheless, considered one of the best 200-yard shots on the Coast, and in the contest Friday proved a worthy contestant for our wily sagebrush sharpshooter.

The conditions of the match were that each man should fire 100 shots at the 200-yard range, Creedmoor rules. This was something new for Thaxter, as he had never before had such an experience, whereas Williams is a veteran at the business.

Thaxter led almost from the beginning, but at no time was more than five points ahead. The totals are as follows:

Thaxter.....446  
Williams.....445

The scores of the shots each were recorded thus:

Thaxter.....43 44 45 46 47 48 49 50 51 52 53 54 55 56 57 58 59 60 61 62 63 64 65 66 67 68 69 70 71 72 73 74 75 76 77 78 79 80 81 82 83 84 85 86 87 88 89 90 91 92 93 94 95 96 97 98 99 100

It took nearly five hours of incessant work to complete the scores, and the men gave evidence of the severe strain that was upon their physical, nervous and mental powers. At the finish excitement ran high, as a poor shot on Thaxter's part would have been disastrous to Nevada. Both men, however, concluded with a bulleye, or woodchuck, as it is called.

The winning score is within eleven points of the best score ever made, Kuhnle, of California, having made 458 at the Shell Mound range in a similar contest.

It is worthy of note that neither man made a three in all the shooting. There were also two other matches between Californians and Nevadans.

In one of these Hub Parker represented Nevada, and Kellogg California. Here are the totals:

Parker.....453  
Kellogg.....436

This was fifty shots at the 200, and fifty at the 500 target. The next was wholly at the 200 range, Lieutenant Galusha being the Sagebrusher in this case, and Lieutenant Klein the Golden Gater. They made:

Galusha.....435  
Klein.....428

Thus, it will be seen, that in all these contests, which were well calculated to test the individual ability of shooters, Nevada came out ahead. If this demonstrates anything it is that the Nevadans can outshoot their visitors, and this, in view of all the circumstances, they appear disposed to concede.

## The Kindergarten School.

One of the most beneficial branches of the Reno public school system is the Kindergarten work. A few have expressed some doubt as to its practical utility, but such doubts are usually entertained by persons who do not take interest enough in educational matters to visit this or any other branch of the school. In San Francisco this work has been fostered until it has acquired a degree of perfection superior to any other locality on the Coast, and is so universal, it patronized that the authorities are troubled to procure rooms and teachers to accommodate the pupils. Every citizen of the commonwealth is interested, whether they realize the fact or not, in seeing the children of the State properly reared and educated, and it is the bounden duty of every citizen to encourage every legitimate means that has a tendency in that direction. A few parents are so situated that their children can be cared for in particular at home, but it happens that very many are not so fortunate. Overworked mothers who seek to have their children obtain a start in the right direction should not be denied an opportunity. Parents, who almost of necessity leave their children open to the influences of the street, should be helped in every way possible. If they are unkind, disolute and vicious, then so much the more must their children be cared for during their years of susceptibility, for the ignorant and vicious, as well as the wise and good, are destined to form a factor in the management and control of the social and political world when the present generation shall have passed beyond the busy scenes of life.

## Gradually Failing.

Hon. David Melrose, who has been in California since the adjournment of the Legislature, left St. Mary's Hospital, San Francisco, last Monday, for his home at Winnemucca. He got as far as Sacramento and could travel no further. He is a very sick man, and it is thought he can never recover.

## Painful Accident.

Friday evening an old gentleman by the name of Thompson, from Honey Lake Valley, was coming to Reno with a load of chickens—some twenty-five or thirty dozen. When crossing the N. &amp; O. track, about three miles north of town, the wagon upset and threw the old gentleman to the ground with such force as to render him insensible for a time. When he recovered sufficiently he unhitched the team and rode into town. L. W. Lee, the stable man, sent out a man to bring in the wreck, and found the wagon considerably smashed up and about half the chickens smashed by being dumped in a pile on top of each other. Mr. Thompson is pretty badly bruised and it will be several days before he will be able to leave his bed.

## A Smash-up.

Dan Boyd and his wife went to Glendale last Friday, and in return home in the night came near having a serious accident. The team was traveling along at a pretty lively gait when one of the horses fell, and the buggy ran onto him. In regaining his feet the horse came up under the tongue and broke it in two. In holding the other back the neck strap broke, leaving the horses fast to the carriage without a tongue. They were luckily quieted and unhitched without further damage, and Dan and his wife had to foot it to a neighboring farm house for assistance.

## A Strange Delusion.

A gentleman past the meridian of life, who labors under the impression that he is a victim of witchcraft, was brought down from Verdi Friday morning. He is constantly annoyed by the imaginary presence of some woman, who appears to him frequently in his waking hours, and at night arouses him from sleep by blowing her icy breath in his face. It is thought that a few days rest and a change of air and scenery will enable him to shake off the strange delusion.

## To Leave Us.

Hon. C. S. Varian leaves for Salt Lake this morning to engage in the practice of his profession, and do his part in making a good name for the firm of Dickson &amp; Varian. Mr. Varian is one of the best lawyers Nevada has ever had, and he will be a valuable addition to the Salt Lake Bar. He loves his profession, is a close student, an active and indefatigable worker, and an eloquent and forcible speaker. He will be a loss to Reno, but the JOURNAL hopes he will live long and prosper in his new home.

## Don't Believe It.

E. B. Rail has been in very poor health of late and he will shortly go below.—Carson Appeal.

There must be some mistake about this. For a quarter of a century Mr. Reid has lived the life of an honest, straight-forward, upright citizen, a stalwart Republican and a conscientious Christian gentleman, and his friends have always believed that when he got sick enough to quit he would go above instead of below.

## The Ernst Libel Suit.

In Department 7 of the San Francisco Superior Court, on Thursday last, Judge Bearden ordered the default of the defendant entered in the case of Geo. Ernst vs. The Post Publishing Company—an act to recover \$30,000, for libel.

The Sierra Valley Leader says: It was an oversight on our part to neglect to mention last week, the departure of H. A. Winton and wife, and brother also, who have removed to Reno, where they will go into business. The Valley thus loses some estimable young folks, who will be sadly missed in social and business circles.

The Reno JOURNAL is running a lot of matter taken from the columns of the Gazette.—Lyon Co. Times.

What about the lot of matter the Gazette is running taken from the columns of the JOURNAL.

Braunhart, the commercial traveler, returned from his northern trip last night.

Wm. Sanders and wife returned from Long Valley last night.

The streets presented an old-time appearance last night.

Gov. Kinkaid came down from Carson last night.

## A FORTUNE.

may be made by hard work, but can neither be made nor enjoyed without health. To those leading sedentary lives Dr. R. V. Pierce's "Golden Medical Discovery" is a real friend. It stimulates the liver, purifies the blood, and is the best remedy for consumption, which is a scrofulous disease of the lungs. By all drugs.

## An Irish Greenback.

A shepherd came in from the north yesterday and at Geo. Becker's saloon attempted to pass a \$5 note which was a very good imitation of the American greenback. In fact it required close inspection to distinguish the difference. Although closely resembling the greenback the note does not purport to be American money. It states plainly that it was "issued by the Republic of Ireland, and redeemable in coin on the day the Republic shall gain its independence." The gentleman who presented the bill supposed it to be a greenback, and was astonished to find it was not. He does not know when or where he got it. It is of course valuable only as a relic, but these notes are so nearly like the greenback in appearance that many people will be deceived by them.

## Advertised Letters.

## Certain Shams.

Swindlers and Their Victims—How Careless People Suffer in Health and Pocket.

Every streak of sunshine creates a shadow, and behind every truth crouches its corresponding lie. Whosoever has not been in some way fooled and robbed by swindlers and their works has had better luck in life than most mortals. In fact the best witnesses to the value of a given article are the counterfeits and imitations which seek to share its success without possessing a fraction of its merit. Hence it goes without saying that

BENSON'S CARPINE POROUS PLASTER Are pursued by a host of miserable and worthless imitations, eager to appropriate what they can of the fruits of its victories. These leeches commonly take the form of a cheap plaster.

Now, these harmless and worthless plasters would be detected in a minute if people were careful in reading and remembering names. But most persons merely glance at them, understand partially and forget instantly. What result? This: Desiring to buy BENSON'S CAPINE PLASTER, their own carelessness enables some storekeeper or druggist, who cares more for five or ten cents additional profit than for the sweets of an approving conscience, to roll them up instead some cheap imitation with a similar name. The deceit often works, while the fraudulent plasters never do.

Don't permit yourself to be thus victimized for lack of a moment's care. BENSON'S CAPINE PLASTERS have stood the test of science and experience and are the product of both. Examine the article, and satisfy yourself that the word CAPINE is cut in it.

Seabury &amp; Johnson Pharmaceutical Chemists, New York. Highest awards medals—at International Expositions.
